Dear Governor Perry, and Representatives Hensarling, Cornyn, Hutchison ... and Obama

On 27 March 2010, Arizona rancher Robert Krentz was murdered on his borderlands ranch. You already know the story... He was on his own property when he came upon a pack of human “mules” walking up from Mexico, and Krentz was shot and killed for ... for ... for being an American who was in the way of a bunch of illegal aliens who were engaged in illegal activities: Transporting drugs and guns in exchange for a guided tour into the USA where they would then take US jobs away from US citizens. And this isn't the first time!

Then, to add arsenic icing to a molding cake, amnesty supporters quickly responded by basically claiming that *Krentz wouldn't have been murdered if the U.S. would just allow foreign workers to freely enter this country.* They might as well have said, “Get out of our way or we'll continue to kill you until we get what we want.” This is crime on a grand scale “excused” by criminals who blame the victims! Let's just make wife-beating a legal activity while blaming the wives for leaving spots on the glasses.

The lax attitude of our leaders has proven the old adage, “Give an inch and take a mile.” Lawmakers gave an inch (ignoring the entry of foreign law breakers into the USA), and the illegal aliens took a mile (gun- and drug-trafficking, kidnapping, rape, torture, murder, extortion, blackmail, child molestation & more). And now they have look-alike border patrol cars that they use to transport even MORE illegal aliens into the US. They will stop at nothing, while we sit idly by allowing the abuses and crimes to continue. If you're thinking, “Oh for pity's sake... ONE U.S. rancher and you're turning it into the holocaust,” then you need to remember:

- The illegal aliens are taking drugs to our school children, and those children ARE dying,
- US Citizens are losing their jobs, homes and very lives at the hands of foreigners,
- Entire families are being threatened and then burned out of their homes on the border, and
- An extremist muslim looks like... a redhead from Iowa... a blonde from Philadelphia – with the last name of *Ramirez* – and they come in all shapes and sizes and colors. When you close your eyes to this ever-present threat, you're BEGGING for someone to come traipsing across the border with a dirty bomb.

We've had enough. We've had *more* than enough! You *must* ensure that the double-fence at the border is finished. You must ensure that the proposed cutbacks to the Border Patrol are reversed and that the Border Patrol actually receives more funding and more manpower. And you must make sure that Border Patrol agents are allowed to enforce our nation's laws. STOP TELLING LAW ENFORCEMENT OFFICERS THAT THEY'RE NOT ALLOWED TO ENFORCE THE LAW! If these things are done, the coming mass murders of our citizens can be averted. If these things are not done, a handful of businesses may reap higher profits at the expense of American jobs but *Americans will continue to die*. The choice is yours – and ours.

Ever so sincerely,

May 26, 2010
